Gonzalo Rosano

Frontend developer · Information Technology Analyst student

Montevideo, Uruguay · rosanogonzalo@gmail.com · github.com/GonzaloRosano · grosano.vercel.app

PROFILE

Frontend developer with more than 3 years of self-taught learning in tech, currently studying Information Technology Analyst at ORT Uruguay. Quick learner, proactive and a strong team player, I want to keep growing in the tech world beyond the developer role. I have a particular interest in design systems and in caring about the aesthetics of every piece of work, combining functionality with a polished user experience.

EXPERIENCE

Quanam
Apr 2024 — present

Junior Developer

- Frontend development with React, PayloadCMS, Angular and Next.js.
- Took part in migrations between versions of different frameworks.
- Work on projects for clients in different countries.
